## Steps to *Perfection*

Rose and Brad Denyes looked at many townhomes before meeting up with Steve Carr Builders and the Villas of La Toscana. "We are both widows and this was to be our first home together," said Rose. "We had an idea of what we wanted in our mind and these townhomes were

very close to that idea." The couple added several upgrades including a sweeping wrought iron and oak staircase that creates a spectacular focal point in the home with vaulted ceilings and a loft. Upgrades to the cabinetry and carpeting helped create the perfect home. "My favorite feature is the kitchen that has an island that looks into the family room. Steve Carr Builders were so responsive to every request that we feel we have found the perfect home."

**Watch for a different Lovable Locals feature in each issue of The Naperville Glancer.**
